Michigan Glass Coatings  
ATTN Kimberly Copacia  
1120 Doris Rd  
Auburn Hills, MI 48326-2615

Dear Ms. Copacia,

Thank you for your generous donation of glass coating (3M Ultra S600) for all the windows in our new Tree House. Gifts such as these help us offset spending while providing tremendous resources for our campers and employees.

This summer, our first of camp, we welcomed 200 children to our new, universally accessible "home." We also hosted four family camp weekends this autumn, serving 52 families (208 adults and children).

Almost three decades ago, Paul Newman started a free camp where kids could escape the fear and isolation of their medical conditions. This year, North Star Reach became a full member of SeriousFun Children's Network—a network of 30 camps and programs around the world.

**"Life has a lot to do with luck—the benevolence of it for some of us and the brutality of it for others, but there is a place where a flame burns for every child no matter how weak or sick they may be. It gives them a chance to believe that there is always hope." –Paul Newman**

It is because of your support and commitment that our camp is a reality. Thank you for giving so generously to help our campers reach for their stars!

Sincerely,

Douglas Armstrong, RN, MS  
Chief Executive Officer and Founder
